

Source Assisted living supply obtained through primary data collection by the authors. Notes Reporting methods for these data can vary somewhat by state. Some states count only one facility per physical location, while others count one facility per license. In addition, state definitions for "units" can vary, with some states including only one bed per unit and others including more than one. Population data obtained from the 2007 Area Resource File. Penetration per 1,000 elderly obtained by dividing assisted living units by number of people age sixty-five and older.

State	Total facilities	Total units	Average facility size (units)	Penetration per 1,000 elderly
Alabama	116	6,502	56	11
Alaska	11	750	68	20
